### **DETAILED ACTION**

1. This application has been examined. The preliminary amendment filed 1/28/05 has been entered. Claims 5-8 are pending.
2. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
3. The IDS filed 1/28/05 has been considered.
4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 5, 7 and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by WO 01/81123 A1 (hereinafter WO '123).

A. As per claim 5, WO '123 discloses a device (Figs. 1, 3) for recognizing a pole crash comprising at least one environment sensor (26) for determining impact velocity, an impact sensor (24) for determining an acceleration during a crash and a processor (22) for detecting a pole crash based on the impact velocity and acceleration and activating a restraint device (25) as a function thereof (page 7, lines 2-11).

B. As per claims 7 and 8, as above whereby the environment sensor (26) may take the form of a radar sensor or an ultrasonic sensor (page 12, lines 1-10).

6. Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art of record does not show or reasonably suggest, in

Art Unit: 3661

combination with the other claimed subject matter, a processor configured to determine a time between a moment of impact with an object and the moment of impact of the object striking an engine block using the impact velocity and acceleration and determining a pole crash as a function of time.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
